

Referencing your reading and sources used

The University of Cumbria uses the Harvard system of referencing contained in [Cite them right](#) (current edition). This book is your key to referencing and copies can be found in the library or it can be accessed electronically from the student tab in Blackboard. For more details about referencing, please refer to <https://my.cumbria.ac.uk/referencing>

Specific to these modules, you will almost certainly need to cite the BNF supplied to you, in the reference list and text of your work. Other commonly used sources on these modules are presented below in accordance with *Cite them Right*, and we recommend that you apply the presentations shown below in your work where this is appropriate.

British National Formulary	
In-text citation (Joint Formulary Committee, 2021) or Joint Formulary Committee (2021) – using author, date and brackets form as indicated in <i>Cite them Right</i> . The year will vary between print and online
