

UNIVERSITY OF CUMBRIA
COURSEWORK REASSESSMENT REQUIREMENT

Module Code: HSOR5009
Module Title: Research Design
Tutor: Professor Heather Prince
<p>Title of the item of work: Assignment 1, Report (35% of module mark) This assignment brief provides details of the details of the assessment task and submission format, the links to the relevant learning outcomes and the marking criteria.</p> <p>Placing your research in context is an essential part of any research project, identifying the current state of knowledge on a key topic, and identifying the existing gaps in our understanding.</p> <p>Your task is to identify a research question and to conduct a critical literature review to place this research in context. The choice of topic is entirely your choice, and opportunities to discuss this will be provided during the module. You must address all of the learning outcomes specified to achieve a pass mark in this assessment. Your word count must not exceed 1500 ± 10%, excluding references. Please state your total word count clearly at the end of your work. This report should be submitted online via turnitin.</p> <p>Your references should be written according to the Harvard system, please consult Cite Them Right for further information. You are expected to use peer reviewed journal articles as the main sources of your information.</p> <p>This report will assess the following learning outcomes (LOs): LO1: Evaluate the different histories and philosophies that underpin the practices of environmental, social and scientific research LO2: Identify gaps in knowledge through development of critical literature reviews.</p>
Wordage: 1500
<p>Details and Criteria: (Please attach additional sheets if necessary) A successful report will include;</p> <ul style="list-style-type: none"> - A clear statement of your research question relevant to your programme and its derivation related to learning outcome (1) - Demonstration of a critical approach to the review of relevant literature - Clarity in analysis of how the selected literature articulates with the research question - A clear and navigable structure - Appropriate use of a range of literature with accurate citation and listing of references <p>These criteria will be assessed alongside the L5 Report grading grid attached.</p>
