'Traditional Skills and Ecological Knowledge'

2. *Articulate and analyse how traditional lifestyles developed skills, affordances and shaped the environment;*
3. *Discuss the wider context of traditional approaches / outdoor living in the context of sustainability and environmental awareness.*

Presented Tuesday 1st March 2022.

- 12-15 minutes.
- Presentation of how traditional lifestyles developed skills and how these enabled implicit environmental knowledge and awareness.
- You will need to define traditional lifestyles and explore this concept.
- You will choose an example where people live a traditional and have developed skills using the affordances of their environment and the knowledge that was implicit in their place of living. You will critically assess the sustainability of this practice. You will evaluate if such learning has a place in your lifestyle and that of a “westernised” way of living.
